

LIST OF FEES - As at Jan 2015

Some work undertaken by the practice is deemed as non- NHS work and the practice will charge for this work. We will always advise patients if something they request needs to be paid for, to enable the patient to decide if they wish to proceed with the request.

The workload requirement of reports vary widely so a price range or an average price is given below, as a guide. Once the GP has seen the type of report you want, we will let you know how much the report will cost.
